 <https://github.com/sanan-959>

## TECHNICAL SKILLS

- HTML5, CSS3, JavaScript (ES6+)
- Node.js, Express.js, MongoDB
- Flutter and Firebase
- Tailwind, React.js
- RESTful API Integration
- Git & Github

## PROJECTS

### MFC Food Delivery System App | Final Year Project

Jan 2025 – May 2025

**Tools & Technologies:** Flutter, Dart, Firebase, GROQ API, Firebase Authentication

#### Description:

Developed a cross-platform food delivery app tailored for the Pakistani market, featuring fast food categorization and AI-powered meal suggestions. This app seamlessly connects customers, restaurant admins, and delivery riders on a unified platform for efficient order management and smart user experience.

#### Key Features:

- Designed and developed a multi-role Flutter app with separate modules for users, admins, and riders.
- Integrated Firebase Authentication for secure Login and Register with email/password.
- Enabled real-time order status management and admin-controlled rider assignment using Firebase Firestore.
- Built a custom AI chatbot using GROQ API to recommend food based on user preferences, dietary Plans, feedback and trending items.
- Developed and maintained cart and favorites systems, category filtering, and feedback modules.

### Weather App | React.JS

A sleek, responsive Weather App built with React.js & Tailwind CSS, showing real-time forecasts via API.

### Currency Converter App | React.JS

A simple, responsive Currency Converter built with React.js using live exchange rates from a reliable API.

### CRUD-based User Information Form | MERN Stack

MERN stack user form with full CRUD functionality and responsive UI using Tailwind CSS.

## EDUCATION

Bachelor in Computer Science | Nov 2021 - May 2025

MNS University of Agriculture Multan

- Major in **Computer Science**
- Current CGPA: **3.52**

## CERTIFICATIONS

#### Web Design Certificate

**Issued by:** Tech 4All Solutions

**Year:** 2022

#### Flutter Development Course

**Issued by:** E-Hunar Mand Program

**Year:** 2024

#### App Development Competition

**Organizer:** Softec'25

**Year:** 2025
